## Experience

**Full Stack Developer - Henry's Food (Academic)** - December, 2022 - January, 2023

Henry Boot Camp, Buenos Aires, Argentina (Remote)

Participation and leadership in an agile development team with sprints of one week presenting a Product Owner.

It consists of an application for a restaurant in which to order food at home or to eat on the premises, with payment gateway, image storage, logical draft, email sending and third-party authentication.

With the use of this application:

- Will reduce the cost of outsourcing restaurant deliveries by 100%.
- Will optimize time having all the data in one place.

My participation:

- Created the administrator panel with a CRUD of the dishes, reviews and users.
- Coordinated and led the development of the frontend and backend
- implement composite filtering and sorting to save 50% customers time
- Improved the user creation form, making it controlled by javascript and reduced 100% of filling errors

Applied agile methodologies (SCRUM) and the following technologies:

Frontend: **JavaScript, React.js, Redux, Tailwind.**

Backend: **Node.js** con **Express** and database in **MongoDB.**

**Full Stack Developer - Recipes App (Academic)** - November, 2022

Henry Boot Camp, Buenos Aires, Argentina (Remote)

- Designed and developed a cooking recipes App that allows you to create recipes, search, filter, order between them and the 100 obtained from the API.
- Executed a request to an API to obtain 100 recipes.

Technologies used:

Frontend: **JavaScript, React.js, Redux.js**

Backend: **Node.js, Express.js, Sequelize** and database in **PostgreSQL**

- 

## Additional information

English: Intermediate - B2 - Spanish: Native

Experience working in a team, managing up to 6 members, also the time to achieve the goals and objectives, persevering until the end, reviewing every detail so that the presentations are perfect and solving big problems by dividing them into small ones.

I am excited for the opportunity to start my career at a company with a good work environment so that I can develop and learn from experts in the IT field by working hard and dedicating myself to the success of the company while gaining valuable experience in the field.
